- Versatile mobile game developer with experience across puzzle, MMO, arcade, and social simulation genres.
- Skilled in gameplay design, UI/UX integration, third-party services (Ads, Firebase, Notifications), and 2D/3D optimization.
- Passionate about creating smooth, engaging, and player-focused experiences while delivering high-quality games on time.
- Current working location: TP Thu Duc, Viet Nam

Work experience

9/2024 – 11/2025

PLAYADS

Frontend - Online - Offline - 2D - 3D

- Developed a wide range of features including UI, gameplay systems, and integrations with third-party services base on game Hyper-Casual and Slot
- Create coding SDK system to intergrate with IOS and Android
- Intergrate with API System and IAP System
- Manage team IOS to build to Testfight and AppStore

4/2024 - 09/2024

SOFUN

Frontend - Online - 2D

- Developed a wide range of features including UI, gameplay systems, and integrations with third-party services base on game Turn-Base 2D
- Intergrate with API System

08/2022 – 03/2024

TOPEBOX

Frontend - Online - 3D

- Developed features and implemented corresponding UI components.
- Built and maintained the in-app Chat functionality.
- Integrated Story-related features (similar to Facebook Stories).
- Contributed to event systems and CoCo System activities.
- Optimized 3D rendering performance within the Map environment.
- Intergrate with API System

Education

2018/10 – 2022/08

FPT Greenwich

Major - Website, Mobile Programming

Level - Good

Skills

- Main**
- HTML, CSS, JavaScript (ReactJS, React-Native, Lit)
 - Node (ExpressJS)
 - RESTful API
 - MySQL, PostgreSQL, NoSQL (MongoDB)
 - C#

Awards

03/2023

Certificate Of Achievement (The Game Developer Fresh Program)

Projects

Goods Store: Sort Master

(05/2025 - 11/2025)

Client	Hyper Casual Project
Descriptions	• Goods Store: Sort Master is a fast-paced match-3 puzzle game that challenges players to swap adjacent goods, create matches, and clear the board before time runs out. The game combines intuitive swipe controls, explosive combo effects, and vibrant visual feedback to deliver quick, satisfying puzzle sessions. • As a developer, I worked on core match-3 mechanics, timed challenge systems, combo logic, UI/UX interactions, and overall game optimization to ensure a smooth and addictive puzzle experience for players. • Info: https://drive.google.com/drive/folders/11LiQ0pns7e0u9kfw43658oDhflLt_8jb?usp=sharing

Block Jam: Bunny Dash

(05/2025 - 11/2025)

Client	Hyper Casual Project
Descriptions	• Block Jam: Bunny Dash is a fast-paced puzzle game where players slide blocks to match them with their corresponding doors before the timer runs out. The gameplay blends quick thinking with strategic movement, supported by intuitive drag controls, charming bunny-themed visuals, and increasingly challenging level designs. • As a developer, I contributed to core block-sliding mechanics, time-based challenge systems, obstacle behaviors, UI/UX flow, and overall game performance to deliver a smooth, engaging hyper-casual puzzle experience. • Info: https://drive.google.com/drive/folders/1NE0iiwyRntTnQRGjcUZXC-NYQx56pZUZ?usp=sharing

Swingo!

(04/2025 - 11/2025)

Client	Hyper Casual Project
Descriptions	- Swingo! is a casual, physics-based jungle adventure where players control adorable animals as they swing from vine to vine across lush forest environments. The game emphasizes relaxed, exploration-driven gameplay with smooth swinging mechanics, soothing visuals, and a collection of unlockable animal characters. As a developer, I contributed to implementing core physics systems, character movement, environment interactions, and progression features to deliver a calm and engaging arcade experience. Collect Pills

(04/2025 - 11/2025)

Client	Hyper Casual Project [Android]
Descriptions	- Collect Pills is a fast-paced color-matching arcade game where players swipe to connect pills of the same color to build chains and score as much as possible before time runs out. The gameplay emphasizes quick reflexes, simple swipe controls, and visually vibrant feedback. As a developer, I contributed to core gameplay mechanics, time-based scoring systems, visual effects, and overall user experience to deliver a smooth and engaging arcade challenge. Zoo Clash.IO

(03/2025 - 11/2025)

Client	Hyper Casual Project [Android - IOS]
Descriptions	- ZooClashIO is a fast-paced online survival game set in a vibrant yet unforgiving wild ecosystem. Players begin as small animals and evolve into powerful beasts by hunting, surviving, and competing against real players worldwide. The game features tier-based evolution, a dynamic open arena, strategic survival mechanics, and extensive customization options. As a developer, I contributed to building core gameplay systems, evolution mechanics, world interactions, and overall player experience within this competitive multiplayer environment. Jackpot Riches - Casino Slots

(10/2024 - 3/2025)

Client	Slot Project [Android - IOS]
Descriptions	Jackpot Riches is a high-energy casino slots game designed to deliver a rewarding and fast-paced Vegas-style experience. Players start with a massive 10,000,000-coin welcome bonus and can enjoy continuous rewards through frequent bonuses, free spins, jackpot events, and a wide variety of themed slot machines. The game features classic 777 slots, modern Vegas-inspired machines, bonus wheels, timed rewards, and weekly new slot releases to keep the experience fresh and engaging. As a developer, I contributed to core gameplay systems, reward mechanics, event features, and overall user experience to ensure smooth performance and exciting progression for players. Mimiland

08/2022 – 03/2024

Client	Metaverse Projecct [Androud - IOS]
Descriptions	- Mimiland is an MMORPG adventure that blends a rich virtual world with a dynamic, social-driven community. Players can engage in conversations, connect with new people, and customize unique virtual identities within a vibrant social universe. As a developer, I contributed to building and enhancing these interactive systems to deliver an immersive and socially engaging experience.
